## MASTER OF BUSINESS ADMINISTRATION (SUPPLY CHAIN AND LOGISTICS)

### ✓ Programme Overview

Modern supply chain management is more than just about operations and logistics. It is about developing, managing and leading vital systems and processes that are at the very heart of business profitability and growth. In view of this scenario, the MBA (Supply Chain & Logistics)-(MQA/FA 2669) offered by the National Defence University of Malaysia (NDUM) has been properly structured to provide opportunities specifically in business, administration, management, defence and security environment where supply chain and logistics is important. One of the most prominent feature of this programme is the focus on supply chain and logistics that will give exceptional dimension and niche to the course.

This programme is designed to build upon students' previous experiences, providing a comprehensive approach to analyse and evaluate preceding transition of goods and services from manufacturers to the customers. The programme also offers rich opportunities to closely evaluate theories, industry practices and trends in supply chain management and logistics. Students of this programme will obtain an in-depth insight into supply chain and logistics management, and they will also be equipped with knowledge and skills required to reduce supply chain and logistics complexities, improve service levels and minimise costs.

### Who Should Attend?

- Professionals working in the area of supply chain, operation, logistics, marketing, business and management. Earning the MBA will provide opportunities for career advancement.
- Future managers and other leadership roles that interact with supply chain and logistics dimensions, and leaders managing cross-functional team may also consider this programme useful.
- Professionals seeking the credentials to enter the field or those seeking a career change will find multiple career options in a variety of industries with this MBA in supply chain and logistics.
- Fresh Graduates who plan to embark on a career in supply chain and logistics.

**Application open all year round**
